

Scott County 2030 Comprehensive Plan Update

County Defined Natural Area Corridors

Legend

- Natural Area Corridors
- Municipalities

Note:

- 1) This map is intended to serve as an overlay to identify priority natural areas and corridors. Boundaries presented are approximate. If a proposed development application is submitted to the County this map will be used to assess whether the activity affects priority natural areas and corridors. If there are natural areas and corridors involved the County will reference available databases to characterize more closely the natural features and communities present and whether the land is already protected by existing regulations. The land owner may be able to take advantage of public value incentives in exchange for protection of areas as described in the Scott County 2030 Comp Plan Update. (Refer to Plan for more details.)
- 2) This overlay map may also be used to target specific areas for land acquisition, improvement, and restoration. However, these actions would only be completed with willing land owners.
- 3) Areas shown include both privately and publicly held lands.
- 4) While priority areas meeting the criteria developed by the County natural areas and corridor planning process are shown in some of the incorporated areas, these areas are not subject to the approaches in the Scott County 2030 Comp Plan.
